30 rounds

BARREL LENGTH
415 mm

LENGTH
* total / folded stock
934 / 689 mm

WEIGHT
* with empty polymer magazine
4.05 kg

WEIGHT OF MAGAZINE
0.24 kg

RATE OF FIRE
620 ± 60 rds/min

Main characteristics

- Kalashnikov system - provides flawless functioning in all environments and terrains
- Exceptional ergonomics: Optimally balanced weight of the weapon and reduced recoil provide high accuracy and efficiency during rapid fire
- Cold forged barrel guarantees high accuracy and durability
- Durability - the use of the highest quality materials in accordance with military standards ensures endurance and resistance of weapons to intensive operational requirements
- Three positions of the fire selector - safe, automatic and semi-automatic
- Mechanical and applied safety
- Polymer magazine with the capacity of 30 rounds
- The compensator simultaneously disperses the gunpowder gases, thus masking the shooter's position
- Two-part handguards made of polymer reinforced with glass fibers with excellent thermal insulation provide comfortable grip
- Iron sight with tritium tubes provides aiming in conditions of low visibility
- Picatinny rails on handguards enable assembly of accessories
- Polymer stock folds to the right side

Differences between models: Mo5 E1, Mo5 E2 and Mo5 E3

- **Mo5 E1** is a basic model without the option of installing optoelectronic devices
- **Mo5 E2** has a rail on the left side of the receiver that enables the assembly of a mount with Picatinny rail
- **Mo5 E3** has a Picatinny rail over the entire length of the receiver cover
