Light machine gun **M84**

Technical Data

CALIBER
7.62 x 54 R

TWIST RATE
240 mm

NUMBER OF GROOVES
4

LENGTH
1190 mm

BARREL LENGTH
603 mm

WEIGHT
8.8 kg

RATE OF FIRE
700 ± 800 rds/min

EFFECTIVE RANGE
1000 m

BELT CAPACITY
100/250 rounds

Main characteristics

The M84 light machine gun is a weapon intended for infantry units, designed for high accuracy at long distances. Thanks to the stable bipod and minimal recoil, it enables efficient and reliable fire in all conditions.

Basic characteristics:

- Parts made of high-quality steel in accordance with military standards
- Chrome-plated barrel interior for extended life
- Mechanical and operational safety
- Gas flow regulator ensures reliable operation in all conditions
- Muzzle brake that also functions as a flash hider
- Iron sight with division of up to 1500 m
- Ammunition belt capacity: 100 or 250 rounds
- Quick barrel replacement without the use of tools – a spare barrel can be included in the set at the customer's request

Assembly to a vehicle:

M84 light machine gun can be mounted on vehicles, with a base with a standard NATO mount. Triggering is done by a spade grip.
