Main characteristics

Light machine gun M84 M is an improved version of the M84 light machine gun, chambered in 7.62×54R, with an effective range of up to 1000 meters

Basic characteristics:

- Chrome-plated barrel interior ensures extended life
- Mechanical and operational safety
- Gas flow regulator ensures reliable operation in all conditions
- Muzzle brake that also serves as a flash hider
- Picatinny rail on the receiver cover
- Folding stock with adjustable cheek pad
- Handguard with Picatinny rails and holes that enable the assembly of accessories

Assembly to a vehicle

M84 M light machine gun can be mounted on vehicles, with a base with a standard NATO mount. Triggering is done by a spade grip.
