MAGAZINE CAPACITY

5 rounds / 5 rounds / 5 rounds

EFFECTIVE RANGE

1300 m / 1000 m / 1000 m

Main characteristics

The design of the bolt action sniper rifle Mo7 M is based on Mauser M98 system. Designed for professionals who demand accuracy, durability and flexibility in the field, the Mo7 M combines traditional reliability with modern tactical solutions.

Basic characteristics:

- Cold forged heavy barrel guarantees high accuracy and durability
- Picatinny rail and receiver of the rifle are made of one block of steel, providing maximum stability and accuracy
- Fully adjustable folding stock enables ergonomic adaptability and ease of transportation, which is ideal for operations in various conditions
- Picatinny rails and K - holes enable simple integration of additional tactical equipment according the user's requirements.
- Adjustable trigger mechanism with single trigger
- Mechanical safety with three positions: safety on, safety off and secure position for assembly/disassembly, provides safety and is very practical for use
- The muzzle brake significantly reduces the recoil of the rifle.
- An optical sight and bipod are included in the rifle set.
