WEIGHT OF MAGAZINE
0.35 kg

RATE OF FIRE
620 ± 50 rds/min

Main characteristics

The M21 BS submachine gun combines the advantages of the Kalashnikov operating system and the 5.56×45 mm caliber in a compact design adapted to current tactical and technical defense requirements.

Basic characteristics:

- Compact design
- A well - balanced weapon with low recoil ensures easy control of the fire
- Cold forged barrel with chrome plated interior provides exceptional accuracy and a long service life
- Mechanical and applied safety
- Three positions of the fire selector - safe, automatic and semi - automatic
- Ambidextrous fire selector
- Metal magazine with the capacity of 30 rounds
- Iron sight with tritium tubes ensures aiming even in conditions of reduced visibility
- Muzzle brake also serves as a flash hider
- Two-part handguards made of polymer reinforced with fiber glass with excellent thermal insulation provide comfortable grip
- Picatinny rail along the entire length of the receiver cover
- Picatinny rails on the handguards
- Polymer stock folds to the right side
