## **Zastava oružje AD - Where History Forged the Future**

Founded at the very heart of Serbian industrial development, Zastava oružje AD is more than a manufacturer-it is the cradle of Serbian industry. Its story began in 1851, with the historic decision to move the Gun Foundry from Belgrade to Kragujevac. Just two years later, in 1853, the first cannon barrels were cast, marking the birth of Serbia's independent arms and equipment production.

From its earliest days, the Gun Foundry was a symbol of progress and innovation. It introduced the first steam engines, first electric light, first technical school, and first quality system in the region. Its excellence was internationally recognized at the 1889 World Fair in Paris, where the Foundry was awarded multiple medals-cementing its reputation on the global stage.

Before the Second World War, Zastava stood as a true industrial giant, employing nearly 12,000 workers and operating over 10,000 machines. That legacy of scale, expertise, and ambition continues today.

In the modern era, Zastava oružje AD produces advanced small arms and military equipment, combining more than 170 years of tradition with cutting-edge technology. Extensive experience in product development, manufacturing processes, and industrial capacity has enabled successful technology transfer and international cooperation with leading arms manufacturers worldwide.

By utilizing CAD-based design systems, Zastava responds swiftly to market demands, delivering modern, competitive solutions tailored to global customers. The company's strategic focus is clear: strong positioning in the international market and long-term partnerships built on trust and performance.

Through the implementation of an Integrated Management System (IMS), Zastava oružje AD continuously improves product quality and operational efficiency. Ongoing investment in employee education, state-of-the-art computer systems, and advanced manufacturing technologies ensures a steady introduction of new products aligned with global trends.

Driven by systematic, skilled, and creative work, and guided by a tradition spanning more than 170 years, Zastava oružje AD remains committed to its most important measure of success-customer satisfaction.

## SPORTING RIFLES M70

### SPORTING RIFLE M70 - PRECISION ROOTED IN TRADITION

The Sporting Rifle M70 combines time-proven engineering with refined craftsmanship. Built around the legendary Mauser locking system, it delivers exceptional reliability and safety trusted by generations of shooters.

Its cold hammer - forged chrome - vanadium steel barrel guarantees outstanding accuracy, consistent shot placement, and a long operational life - even under demanding conditions.

Crafted for both performance and elegance, the M70 features a premium walnut stock, carefully selected for strength and beauty. Shooters can choose between the classic Pig Back or the ergonomic Monte Carlo design, both complemented by a rubber recoil pad for shooting comfort and a walnut grip cap that enhances the rifle's traditional character.

Safety remains uncompromised. A lever - type safety securely blocks the trigger mechanism, ensuring confident handling in all situations.

To suit individual shooting preferences, the M70 offers multiple trigger configurations:

- *Single trigger for dependable, straightforward operation*
- *Single set (DAT) trigger, allowing pre - triggering for an exceptionally light and precise pull*
- *Double trigger, enabling pre - triggering with one trigger and an ultra - light pull on the second*

The rifle is optics - ready, allowing easy attachment of an optical sight base, while robust iron sights come standard, featuring an open rear sight and a protected front post for reliable target acquisition.

Finished with deep blued metal surfaces and oiled, hand - polished wood, the Sporting Rifle M70 stands as a perfect balance of tradition, precision, and modern shooting performance.

## SPORTING RIFLES M70 PS

The M70 PS blends the proven design of Zastava's legendary M70 platform with modern, state-of-the-art materials, creating a rifle built for durability, performance, and hard use. Trusted by generations of hunters, this series has earned its reputation through reliability and results in the field. The M70 PS features a rugged polymer stock paired with a standard barreled action made from premium chrome-vanadium steel.

This configuration delivers exceptional strength while keeping maintenance fast, simple, and hassle-free. Its sport-oriented, modern appearance makes it especially popular with younger and dynamic shooters. At its core is the original Mauser locking system, renowned worldwide for unmatched reliability.

The fiberglass-reinforced polymer stock provides outstanding resistance to impact, weather, and wear, ensuring long-term durability in all environments. Designed through careful analysis of shooter demands from around the world, the M70 PS stands for precision, accuracy, and endurance—qualities that have become synonymous with Zastava oružje AD. Built to last, engineered to perform, and designed to remain relevant for generations.

## SPORTING RIFLES M70

### **M70 WITH LAMINATED STOCK - BUILT TO PERFORM. DESIGNED TO STAND OUT.**

The M70 barreled action, paired with a premium laminated wood stock, delivers proven performance with modern versatility. Designed for shooters who demand strength, stability, and personal style, this configuration is available in three distinct stock shapes and four attractive color options, allowing you to tailor the rifle to your preferences.

**Laminated Rifle Stocks - Strength You Can Trust.**

Each stock is manufactured from high-quality laminated wood, carefully selected and expertly dried to achieve superior rigidity and long-term geometric stability. The advanced lamination process ensures exceptional strength, resistance to warping, and consistent accuracy—even under demanding conditions.

To ensure lasting durability, every stock is finished with multiple layers of specialized lacquer, protecting it from moisture, chemically aggressive environments, and extreme weather conditions.

This robust surface treatment preserves both performance and appearance, season after season. The result is a rifle platform that blends natural beauty with engineered durability—stable, reliable, and ready to perform wherever your pursuit takes you.

Designed for comfort and precision, the stock features adjustable cheek-pad height and length of pull, allowing a perfect fit for every shooter and enhanced control for accurate shooting.

# SPORTING RIFLES M85

The Sporting Rifle M85 is built on Zastava's proven Mini Mauser bolt - action system, delivering uncompromising strength and control in a compact sporting platform. Designed for smaller - energy cartridges, it retains the legendary operating principles of the original 1898 Mauser - engineered for speed, precision, and absolute reliability. Its cold hammer forged chrome - vanadium steel barrel is built to endure.

Manufacturing proven over decades ensures consistent accuracy, high resistance to wear, and long service life, even under demanding shooting conditions. The rifle is fitted with a solid walnut stock, available in Pig Back or Monte Carlo configurations, reinforced with a rubber recoil pad for firm shoulder control. A walnut grip cap completes the rifle's commanding, classic profile.

A lever - type safety locks the trigger mechanism for secure handling. Trigger options - single trigger, single set (DAT), or double trigger. The receiver is optics - ready, with threaded mounting points for sight bases, and the rifle comes standard with iron sights for immediate use. Deep blued metal surfaces and oiled, polished wood protect the rifle and reinforce its rugged, no - compromise character. **Compact. Precise. Built to dominate.**

## SPORTING RIFLES M07 M

### PRECISION THAT DOMINATES AT LONG RANGE

The Sporting Rifle M07 M is a high - performance competition rifle built to win at long distance. Designed for shooters who demand uncompromising accuracy and total control, this bolt - action rifle is based on the legendary Mauser M98 mechanism, ensuring rock - solid reliability and smooth operation under pressure.

- Cold - forged heavy barrel delivers exceptional precision and long-term durability
- Fully adjustable folding stock for fast, ergonomic setup and perfect shooting position
- Picatinny rails on the receiver and barrel allow maximum customization with optics, bipods, and accessories
- Adjustable single trigger tuned for competitive performance

- Three - position mechanical safety: Safe ON, Safe OFF and Secure unlock (mechanism can be unlocked, but trigger cannot be fired)
  - Muzzle brake significantly reduces recoil for faster follow - up shots
  - Effective range up to 1300 m, built for serious long range competition
- M07M: engineered for precision, built for dominance, and designed to outperform at every distance.

## SEMI AUTOMATIC RIFLES

### UNSTOPPABLE FIREPOWER. ZERO HESITATION. ABSOLUTE CONTROL.

Semi-automatic rifles deliver a decisive advantage: rapid, uninterrupted fire with full control and accuracy. Zastava's semi-automatic sporting rifles take this advantage to the next level by employing the legendary Kalashnikov operating system, the most proven and trusted mechanism in modern firearms history.

Built to perform anytime, anywhere, these rifles function flawlessly in all environments, delivering uncompromising reliability when it matters most. A safe and dependable trigger mechanism, combined with a locking safety system, ensures firing only when the rifle is fully secured - maximum safety, maximum confidence. Superior ergonomics and perfect balance translate into mild recoil, reduced weight, and outstanding compactness, allowing faster handling and sustained control shot after shot.

Cold-forged barrels ensure exceptional durability, accuracy, and long service life. Designed for versatility, these rifles are fed from a detachable magazine, feature front and rear iron sights, and come optics-ready with a Picatinny rail or optical sight base. An optical sight mount can also be supplied upon customer request. **Zastava Semi - Automatic Sporting Rifles Built on tradition. Engineered for dominance.**

CZ 999	9 mm PARA	15	0.92	108	140	198
CZ 999 COMPACT	9 mm PARA	15	0.90	98	140	188

### EZ 9 / EZ 40

Is a pistol with open type hammer and tactical rail for the assembly of accessory optical and electronic devices on the frame.

#### EXTENDED REAR PART OF THE HANDGRIP

A more secure grip gives an impression of a lighter gun.

#### TACTICAL RAIL

Provides quick and safe mounting of various optical and electronic devices.

#### SA / DA PISTOLS

LOADED CHAMBER INDICATOR - an important safety feature.

### EZ 9 COMPACT

Is a version of pistol EZ 9. Its length is modified, to achieve better compactness of the gun, but ballistic performances of the basic model are kept.

Feeding from a double-stack detachable magazine with 10- or 15- round capacity, the pistol provide ample firepower without compromising balance or handling. Ambidextrous firing controls ensure seamless operation for both right and left handed users, while multifunctional controls and a loaded chamber indicator enhance safety and situational awareness.

High-visibility square sights with white dots enable fast, accurate target acquisition, even in low-light conditions.

The slide is machined from high-quality alloy steel, while the frame is made from lightweight aluminum alloy, delivering strength without unnecessary weight.

High-impact polymer grip covers provide a secure, comfortable hold in all conditions. Durable surface protection includes phosphatizing and painting of aluminum components, with blued steel parts for corrosion resistance and a professional finish.

#### Technical Data

SPORTING RIFLES & PISTOLS

## SPORTING RIFLES & PISTOLS LUX & EXCLUSIVE

*This page shows only several examples of these guns, but there are many more Lux & Exclusive models that we produce.*

WHERE FIREARMS BECOME ART.  
WHERE TRADITION BECOMES LEGACY.

At Zastava oružje AD, luxury is not an option - it is a tradition. Our luxury and exclusive engraved rifles and pistols represent the pinnacle of craftsmanship, created for those who demand more than a firearm: they seek a masterpiece. Each piece is hand - engraved by master artisans whose skills have been refined through generations. Every line, every motif, every engraved detail is carefully executed by hand, transforming steel and wood into timeless works of art. No two firearms are ever exactly alike - each one is a unique expression of precision, heritage, and prestige.

Beneath the exquisite engraving lies the renowned Zastava reliability and performance, forged through decades of engineering excellence. These firearms are not only visually breathtaking - they are fully functional, perfectly balanced, and built to the highest technical standards.

**Premium materials are selected without compromise:** finely finished alloy steel, luxurious walnut stocks, and flawless surface treatments that enhance both beauty and durability. From classic ornamental patterns to bespoke custom designs, every detail reflects exclusivity, refinement, and authority.

Zastava's luxury engraved firearms are created for collectors, connoisseurs, and those who appreciate heritage, craftsmanship, and individuality. They are symbols of success, tradition, and enduring value - designed to be admired today and passed down for generations.

**Zastava oružje AD Luxury Collection**  
**Handcrafted excellence. Engraved elegance. Firearms beyond time.**
